

inverFLOW^{PLUS}

RAISING THE STANDARD OF POOL PUMPS

Madimack's inverFLOW Plus redefines reliability and innovation in pool pump technology. Backed by an industry-first 5-year warranty, this variable speed inverter pump delivers outstanding energy efficiency, whisper-quiet operation and smart features for years of hassle-free performance. Enjoy skimmer mode, WiFi remote control and a compact, space-saving design. Retrofit-ready for most major brands, the inverFLOW Plus seamlessly retrofits to existing plumbing, no extra pipework required.

Trusted by
POOL PROFESSIONALS

InverMAC Technology

Automatically adjusts motor speed for optimal performance and energy savings

Wi-Fi enabled + App control

Remote operation, scheduling, and monitoring from your phone

Retrofit Ready

Direct replacement for existing pumps - no plumbing changes needed for common brands

Skimmer Mode Function

Enables surface skimming for cleaner surfaces and optimal debris removal

Quiet operation (36dB)

Significantly reduces noise for a more peaceful backyard environment

5-year Replacement Warranty

Long-term peace of mind and product reliability

Compact design

Fits into tight equipment spaces with ease

Loss of Prime & Low Flow Protection

Automatically shuts down to prevent damage during low or no flow.
